Exhibit F – Assessment Review

- The Property Appraiser's just value is 98% of the market value indicated by comparable sales. After the 15% cost-of-sale adjustment required by Fla. Stat. 193.011(8), just value should not exceed $568,000.
- The property sold on March 14, 2025, so the assessment cap reset and assessed value equals just value for 2026.
